"Taking a closer look at FUNction, it's clear to me that every buffet has to be a memorable event."

The buffet is gaining in popularity. No self-respecting establishment wishes to be without a breakfast buffet. Even lunch and dinner are often presented buffet-style.

The horn of plenty from the FUNction collection: never before was it so easy to symbolise lavish abundance.

Today it is not only the chef who is expected to constantly provide new ideas for cold and hot buffets. To delight the guest, the food and the way it is presented should be perfectly co-ordinated. Bauscher's new FUNction buffet collection was carefully designed with an attractive form concept, a unique combination of fun and function. Extra-large hard porcelain and glass bowls, space-saving platters suitable for arranging flat or inclined towards the guest, bowls emerging from fine metal presentation stands, combinable serving bowls,

pots for dressings and preserves give the specialities of the day their own exclusive character. A material mix of high quality porcelain, elegant glass and fine metals further enhances the guest's experience.

**FUNction ELEVATES THE BUFFET TO
A SUPERLATIVE EXPERIENCE.**

Today's generation of guests expects to be able to put together a menu just as the mood takes them.

Form and function in perfect harmony, designed for the creation of appealing buffet landscapes: FUNction with its presentation elements for bowls and platters.

The culinary delights of a buffet are not only visual. The new FUNction range was designed to heighten the dining experience and at the same time provide modern catering establishments with the necessary economic factors. The impressive

glass designs with its favourable price-performance ratio and the hard porcelain items with all of the advantages, far exceed mere presentation. FUNction is an all-round concept which with its highquality materials opens up a whole spectrum of possibilities to today's and future generations, thereby reflecting the attributes demanded by the catering industry to conform with working procedures and strict quality standards.

**NO LIMIT TO
NEW IDEAS.**

Innovative porcelain ideas from Bauscher create a congenial atmosphere and ensure service without a hitch. Customers all over the world appreciate these qualities.

The functional qualities and everyday serviceability of Bauscher special porcelain can be relied upon especially for unconventional innovative design ideas.

A variety of ingredients par excellence: preserves pots with attractive hard porcelain and clear, satin-frosted glass.

Bauscher porcelain is rated highly in all catering sectors. Resistance to impact and breakage, perfect functional qualities, rational washing and stacking are ideal characteristics for use. In the new FUNction buffet programme the specific benefits of porcelain have been combined with Bauscher expertise of many years. Not only are there presentation
